Health Papers: Health papers will be provided on each lot in the sale suitable for interstate shipment.

Sale Schedule

All Events at Burton Coliseum Complex, Lake Charles, La

Wednesday, Oct 5

All Day - Cattle available for viewing

5:00 PM - Official Grading of all Sale Bulls, Professional Cattleman Grading Committee -

5:00 PM - Cattleman's Social - A Gathering of Friends and Spectators - All Welcome!

Thursday, October 6

7:30 AM - Cowboy coffee

7:30 AM - Cattle available for viewing

10:00 AM - Advancing the Breed Braford Bull Sale Followed By - Braford Female Sale

All Bulls were developed under the Pfizer Animal Health Guidelines .

Pfizer Animal Health

WELCOME!

Do you need a little more ear on your Angus based cow herds? Have you been noticing the value of some of those Super Baldie heifers? This set of stout, performance tested Braford bulls could be the answer to your questions. All bulls will sell in the order they are graded by our committee of Commercial Cattlemen on Wednesday evening. We invite you to join us for the grading and social hour. You will meet some great people and see some great cattle.

All bulls have been developed in a commercial feedyard setting with growth performance, ultrasound carcass data and EPDs provided. Since the evaluation period ended in late February, bulls have been further developed on grass with supplemental feed. The primary offering will be purebred Braford bulls, plus a few 1/4, 1/2 and 3/4 Brahman bulls. All cattle are registered with United Braford Breeders.

Complete performance information is provided on each bull. Complete EPDs, the most accurate means of comparison between bulls, are provided as well as yearling frame score, and complete ultrasound data. Each bull has passed a Breeding Soundness Evaluation performed by Dr. Steve Schultz, of Franklin, Texas. This is a set of herd sire prospects you can buy with confidence based on the objective measurements you have at your disposal, the wide cross section of cattle evaluated in this test and the confidence you can place in your fellow breeders. It is truly an Opportunity to Advance the Breed.

UBB PRESIDENT

On behalf United Braford Breeders, I would like to welcome you to our first annual Braford bull sale. This sale concludes our first bull development program. The development program commenced last October when the bulls were delivered to the Graham Land & Cattle Co. feedyard in Gonzales, Texas. These bulls were turned over to Jay Gray and Maurice Janda with Graham Land and Cattle Co. and then David Eppright and his beautiful ranch located approximately 15 miles from the feedyard. I would like to extend a special thank you to Jay, Maurice and David for their expertise in helping UBB members develop these bulls. The quality of this set of Braford bulls will accommodate your breeding program through desirable growth and carcass traits in their steers and heifers that will make excellent mothers. The focus of our bull development program was to advance the Braford breed and to produce a quality set of bulls that are compatible with other American breeds by offering the commercial cattlemen a viable alternative in their crossbreeding strategies. With the high cost of production, the only thing that is free in the cow business is hybrid vigor.

We will also have a select group of registered bred and open heifers for sale. I look forward to seeing you in Lake Charles, Louisiana on October 5th and 6th. Please don't hesitate to contact us with any questions or concerns.

Jim Harvey
UBB President

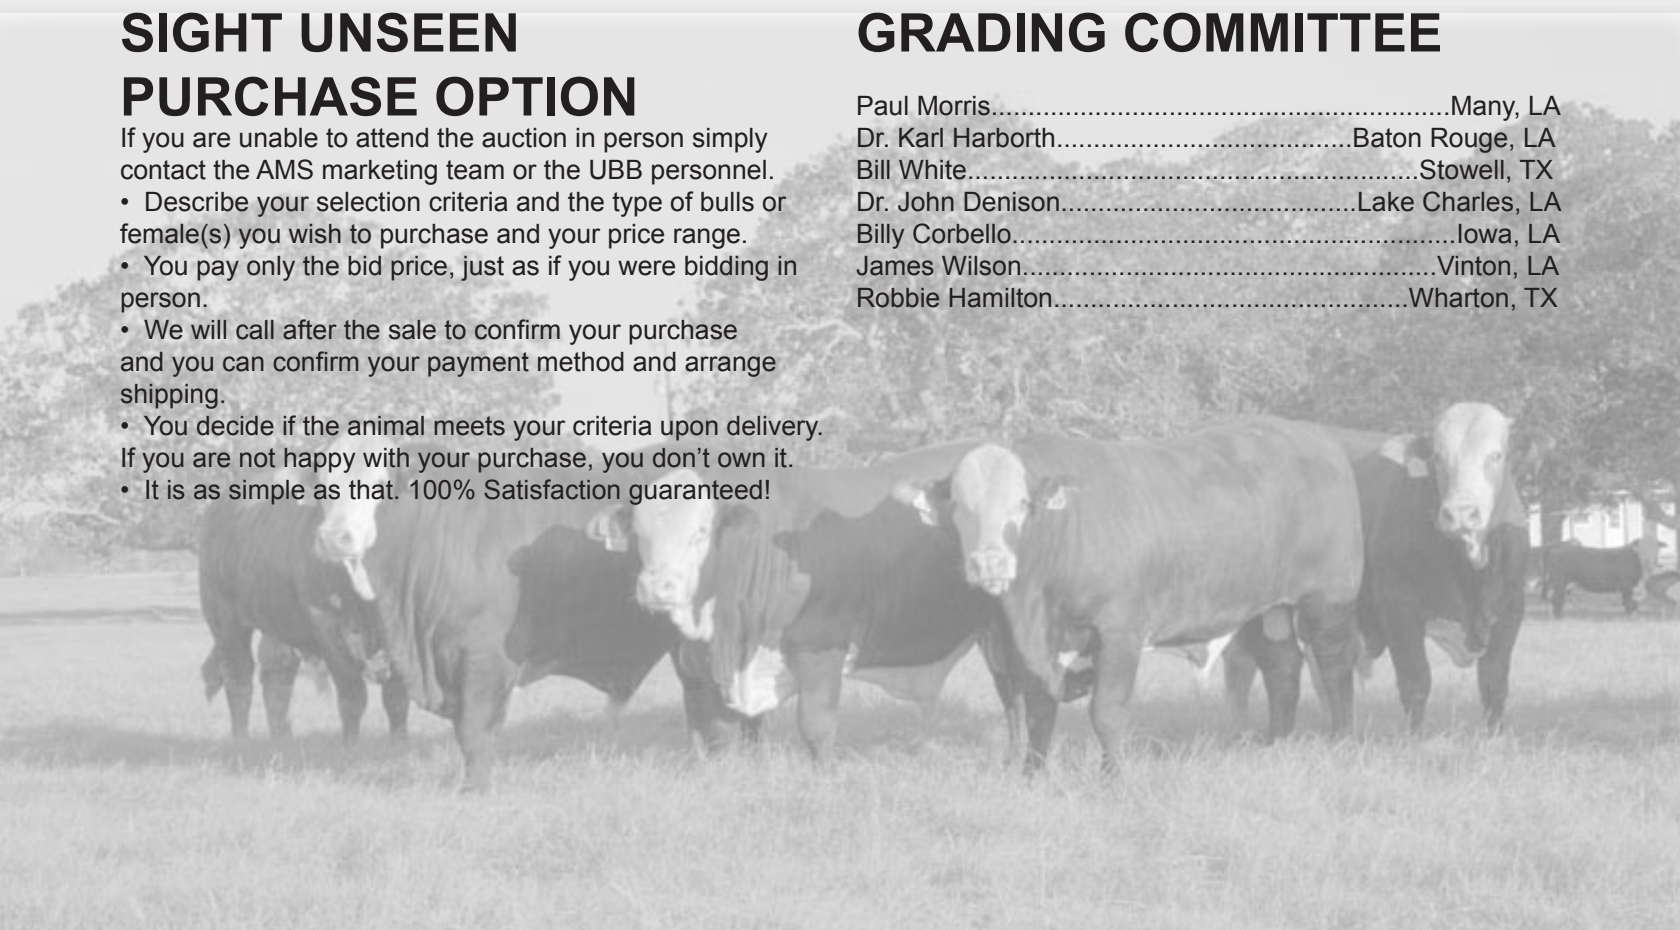

SIGHT UNSEEN PURCHASE OPTION

If you are unable to attend the auction in person simply contact the AMS marketing team or the UBB personnel.

- Describe your selection criteria and the type of bulls or female(s) you wish to purchase and your price range.
- You pay only the bid price, just as if you were bidding in person.
- We will call after the sale to confirm your purchase and you can confirm your payment method and arrange shipping.
- You decide if the animal meets your criteria upon delivery. If you are not happy with your purchase, you don't own it.
- It is as simple as that. 100% Satisfaction guaranteed!

Robbie Hamilton.....Wharton, TX

HOW THE BULLS WERE DEVELOPED

The bulls in this sale represent several individual Braford breeding programs. The bulls were bred by top breeders in Texas, Louisiana, Mississippi, Alabama, Georgia and Florida. Because the offering was assembled as calves produced in varying management and environmental settings, to provide a basis for making judicious comparisons, the sale catalog lists EPDs and performance measurements recorded in the development program in which all the bulls were treated alike.

The bulls arrived at the Graham Land & Cattle Co. feedyard in Gonzales, Texas on October 12, 2010. They were processed into the program and went through a brief warm-up/ adjustment period. Their starting weights were then taken on October 28. The bulls were fed in this commercial feedyard environment, all in the same pen, through February 25 when they were weighed off test. All ADG and WDA numbers in the catalog reflect performance over this 120-day period.

Ultrasound data on the bulls were collected by a CUP certified technician and evaluated in the CUP lab. The older bulls, those calved before December 8, 2009, were scanned on December 16, 2010. The younger bulls were scanned on February 25, 2011. Ultrasound data were collected on all bulls within the recommended ultrasound age window for yearling bulls. Yearling scrotal circumference and frame score were recorded at the time bulls were scanned.

At the conclusion of the test period, the bulls were trucked to nearby pasture where they were further developed. They were split into two groups based on size and age. They were kept in approximately 100 acre bermudagrass pastures until the week of the sale. While on pasture, the bulls were supplemented with a high roughage ration daily.

The bulls were semen tested and weighed on September 8, 2011. September 8 weights and scrotal circumference measurements will be available at the sale or at the UBB's website www.brafords.org.

The bulls will remain on pasture in Gonzales until they are trucked to the sale facility in Lake Charles, Louisiana shortly before the October 6 sale.

NOTE FROM SALE AND BULL DEVELOPMENT PROGRAM COMMITTEE

The Sale and Bull Development Program Committee is excited about our first offering of bulls available this October. The true goal and focus of this program was to provide a consistent set of commonly developed bulls for both commercial producers and purebred breeders. In a time where out-crossing, without sacrifice of performance or carcass quality, is becoming necessary in many of our herds, these bulls are the ideal cross for producers in the southern third of the United States. The Bulls represent a true sampling of top Braford genetics from multiple breeders across the gulf coast states. Bulls were committed to the program in October of 2010 and delivered to Graham Land & Cattle Company in Gonzales, Texas. They have been fed to allow for differences in performance and carcass desirability to be recognized. The emphasis has been to provide sound, quality individuals ready to go directly into your breeding program. Ultrasound data, gain performance, and breeding soundness information have been recorded and this plus current EPDs are available on each of the sale lots. This is a good looking, good sheathed set of Braford bulls. Do not miss this opportunity to see the first, truly great set of Braford Bulls coming out of this program.

Rhea Shields

UBB Bull Development Program Chairman

LOT 125 IS A VERY SPECIAL LOT

UBB President Dr. Jim Harvey is donating the proceeds of the sale of this powerful herdsire prospect as a memorial to recently deceased UBB Director Jerrell Johnson. Proceeds will go to the UBB to enhance the association's performance evaluation program. This is Harvey's top bull in the program. He is a first generation purebred sired by an own son of the celebrated Hereford herdsire Remital Online 122L. His EPDs are outstanding with WW, YW, TM, REA and MARB all in the top 10% of the Braford breed.

TERMS AND CONDITIONS

BIDDING

Each animal will be sold to the highest bidder.

TERMS

Terms will be cash unless prior arrangements have been made between the purchaser and seller.

DISPUTES

1. The auctioneer will settle any and all disputes as to bids by declaring all bids off and reselling the animal in question.
2. Should a dispute arise between the buyer and the seller after the animal has been delivered, the UBB will assist in trying to resolve the matter in an equitable fashion, but will assume no responsibility.

PURCHASER'S RISK

Each animal becomes the risk of the purchaser as soon as sold.

ANNOUNCEMENTS

Announcements from the auction box will take precedence over printed matter in the sale catalog.

LIABILITY

All persons who attend the sale do so at their own risk. The owners, sales managers and the UBB assume no liability, legal or otherwise for any accidents which may occur.

REGISTRATION CERTIFICATES

It shall be the responsibility of the seller and/or the sales manager to see that applications for transfers are properly prepared and submitted to the UBB within 30 days after the sale, or receipt of full payment.

HEALTH

All cattle must meet interstate health requirements, which comply with state and federal regulations. Cattle must be accompanied by current interstate health certificates. Calf-hood brucellosis vaccination of all eligible females is required.

GUARANTEE

1. All cattle are guaranteed breeders provided they are properly handled and cared for by the purchaser.
2. All cattle are guaranteed to be free from known genetic deformities and are guaranteed to not produce a calf with an inherited deformity for a period of one year from the sale date.
3. All bulls have passed a breeding soundness exam within 30 days of the sale and will be accompanied by a health certificate on which the licensed veterinarian who conducted the examination states the results of the evaluation.
4. All females sold as bred have been examined by a licensed veterinarian within 60 days prior to the sale. All females sold as open will be guaranteed as such.

IDENTIFICATION

Each animal will be permanently identified by a readable brand or tattoo corresponding to the ID indicated on its registration certificate.

RIGHTS AND OBLIGATIONS

The above terms and conditions of sale shall constitute a contract between the buyer and seller of each animal and shall be equally binding on each. Each sale or resale of an animal constitutes a separate transaction. Neither the UBB, the sales manager, nor any other person connected with management of the sale assumes any liability, legal or otherwise.

The logo for American Marketing Services, featuring the words "american", "marketing", and "services" stacked vertically in a bold, sans-serif font. The word "american" is in a lighter shade, while "marketing" and "services" are in a darker shade. A horizontal line is positioned between "marketing" and "services".
